Force torque sensor project

BY: EZRA DORSEY
Project goals

- Primary goal: create a program that can read and display the data of the force/torque sensor
- Things needed to accomplish this goal:
  - Knowledge on C++ programming and Linux
Ranger
Force-Torque Graphs
Force/Time and Torque/Time
Challenges faced/interesting experiences

- Timeframe
- Difficulty of material
- Ranger
- Lab setup
What to accomplish

- Optimization and completion of code for sensor
- Calibration of sensor
Acknowledgements

- Nicholas M. Limparis
